OVERVIEW**

ABOUT US

The WRISE Leadership Forum is a unique experience, combining professional development with tools to advance renewable energy. Join professionals virtually from across the country as we discuss current renewable energy trends and policy issues; all while gaining valuable tools to enhance your career and build your companies and organizations.

Even virtually, the Leadership Forum remains a great way to network with leaders from various sectors in renewable energy: developers, EPCs, O&M, utilities, and C&I; all of which will be represented at this event.

Produced by

Women of Renewable Industries and Sustainable Energy (WRISE) is a national nonprofit that imagines a transformed energy ecosystem where all people and our planet thrive. WRISE accelerates the transition to a sustainable and equitable energy future by igniting the collective power of community. wrisenergy.org
